Mr Glenn Klein

Klein Architectural P/L

17 Aranda Street

Slacks Creek

Queensland 4127

Dear Glenn

Thank you for the opportunity to trial the grab rail from Klein Architectural.

Since it's installation in our 8 metre Noosa Cat '*Marine Rescue 2*' in August 2009 we have tested the rail in all types of weather and conditions. I am quite happy to say that feedback from all of the crew members has been positive to say the least. The general consensus is that the rail offers superior holding capacity in both wet and dry conditions without compromising strength.

I would have no hesitation in recommending the grab rail to any boatie who wanted to increase the safety of their crew whilst onboard a vessel. I would also be quite happy to offer verbal recommendations to your prospective clients if they would like to contact me on **Mobile: 0434 606761.**

Yours sincerely

Ken Gibbs
